JUNIOR TENNIS

Our junior tennis program is a year-round program designed for all levels of players. We focus on the fundamental skills necessary for kids of all ages to learn and play the game of tennis. We follow USTA Quick Start Programs Guidelines for the "10 & Under" Juniors and we also offer classes for more advanced and/or older junior players.

By using the age and skill appropriate speed of ball, it allows our instructors to teach the proper mechanics as well as helping the student succeed in implementing the skills they learn. As players develop, they will progress to faster paced balls and more realistic game situations.

We encourage year round learning and offer three sessions throughout the year for our program. After school and weekend clinics are offered in the Winter/Spring (January – May) session and the Fall/Winter (September – December) session; whereas morning and afternoon camps are held in our summer session (June – August).
